

How to Prevent Broken CFL Bulbs

By: Kaitlyn Fudge

Allow it to cool, before touching.

Screw it in until snug.

Unscrew Here

Not Here

Don't over-tighten!

Extra Tip

Try CFLs with a covering over the spiral.

Places Where CFLs Can Easily Be Knocked Over

Table Lamps

Floor Lamps

Play Areas

Unprotected Fixtures

Extra Tip

Put a drop cloth down when changing bulbs.

There are efficient alternatives like LEDs or Halogens!
